SECTION H – NOTAM

A message from the CEO

Pilots,

How great it is to have seen our airline grow from just a handful of pilots to over 300 active members contributing to make our virtual airline amongst the best in the business. We have seen new improvements within our real world counterpart, American Airlines, and it has motivated us to do the same at AAVirtual.

This document has been written over the course of a few months and carefully thought out to address many problems. You can consider this document the backbone of our airline. When our staff are asked to answer questions, we will often quote from this document because the guidelines and rules set out in this document are meant to answer any and all questions related to our airline. We ask that you take the opportunity to read through this SOP and let it be your guide. For now, let me thank you for making AAVirtual your home airline and we consider it a privilege to have you amongst our pilots.

Sincere Regards,

EJ Davis,

AAL1000, CEO.
